Warm, cosy and much more besides

Something quite unique, brought to you by a staff that goes to endless lengths to offer you a feeling of warmth and comfort that words cannot describe.

A luxury setting

JIVA HILL PARK HOTEL has 28 deluxe rooms with terraces, and six private lodges each with its own garden and jacuzzi.

Let your senses awaken

Shamwari offers contemporary decor, warm design together with a panoramic terrace facing the Mont Blanc and a salon for private functions. Sullivan Breton proposes french gastronomic cuisine revisited, between tradition and “avant-gardism”.

It is a skilful and inventive blend of quality, freshness, innovation and generosity that awakens your senses.

A unique haven of well-being

Listening to the water lapping against the brown, green and gold mosaics, it is as if time is standing still. The teakwood terrace, bathed in the warmth of the sun, leads directly to the swimming pool inside.

The sauna, hammam, jacuzzi, the treatment and massage rooms as well as a fully equipped fitness facility make JIVA HILL PARK HOTEL a unique haven of well-being.

A rare cocktail of activities and relaxation

You will find exceptionally good sports facilities. At the EUROLAC water sports centre there is a man-made lake 650 m long just for water skiing enthusiasts. A golf practice has just been inaugurated and a 9-hole golf course will open in 2008. Two tennis courts, a jogging circuit and a fitness trail are available to you. The estate also has a riding school.

For those unforgettable moments

The Villa du Lac has been designed exclusively for your receptions and seminars, with all the latest multimedia technology. The rooms enjoy natural light and the terrace offers panoramic views to relax and enjoy the surrounding beauty – privileged, unforgettable moments. In the restaurant, the Salon Voltaire is ready to host your most confidential functions.
